

Tableaus:

A tableau is a still picture that is created with people in a group. It's as if someone came along and took a picture and the group then recreates that picture. usually a series of tableaus are created which shift into each other. For example: Tableau 1 - A kid hanging with his friends Tableau 2 - His friends start drinking Tableau 3 - They offer him a drink Tableau 4 - The kids walk away Tableaus are a fun interactive way to get a message across. Use the sculptor and clay exercise above to lead into a tableau exercise.
